

Jennie's Meadow

The OLYMPIC

Choose peace of mind in your new single-family home, built with care and quality—including professional lawn and landscaping maintenance.

The Olympic has 1,685 square feet in a plan that features two-bedrooms-plus-den or separate dining room. Designed for your easier lifestyle, there's plenty of comfort and flexibility packed into every home.

Open floor plan: Home features a great-room with fireplace and entertainment area, combined with a spacious kitchen and light-filled nook adjoining a covered outdoor patio. Oversized doors and windows add space and natural light. Architectural details like half-columns serve to define room transitions.

Luxurious master suite: A hallway entry adds privacy; there's access to a covered porch, a spacious walk-in closet, two vanity sinks, showers with built-in seats and private commodes.

Guest suites: The second bedroom has its own bath and covered porch, ensuring privacy for you and your guests or family.

Maximum attention to detail: Walls have rounded corners; trim and molding are white painted enamel; hardware matches throughout the home.

More features: Fully-landscaped yards with irrigation; stylish and efficient kitchen islands with tiled counters; a separate laundry room with cabinetry; centralized media panel (with Cat-5 wiring); energy efficient heat pumps; and a two-car, attached garage. The expansive rear patio and covered porches in the front and back of your Westerra Home invite you to enjoy Sequim's wonderful weather all year long.

The Classic

The Craftsman

Two architectural styles: Choose exterior details and trim to create a traditional, Classic feel or select the solid Craftsman look, above right. Both feature clapboard siding with shingled accents, and a selection of gentle, earth-tone paint colors.
